

HS CATHETERS for Hysterosalpingography and Sonohysterography

- Equipped with an embedded stylet in cases when stenosis is present or when the vaginal tract and cervical canal are not aligned
- Designed and manufactured to ensure a minimally invasive yet consistently effective procedure
- Smooth tip reduces risk of trauma upon insertion and removal of catheter
- Stable placement sheath decreases the need for a tenaculum
- Soft, concentric balloon secures above the internal os preventing leakage of sterile saline or water-based contrast media
- Made with 20% radiopaque material allowing catheter to be seen under xray
- **PVC Free and non-DEHP.**
- **Not made with natural rubber latex.**
