Gytech IUI Catheter

BENEFITS

Tested to ensure non-pyrogenicity (LAL) and sperm compatibility

French Size 5Fr

Luer Type Female

Box Qty 25 each

Length 18cm

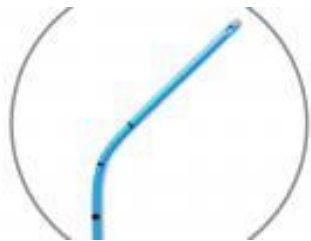

TECHNICAL DATA

Not made with natural rubber latex. PVC Free & non-DEHP

Shapeability

Shapeable IUI catheters are manufactured with superior memory enabling the doctor to form the tip of the catheter to align with the cervical canal.

Clear shapeable IUI catheters allow for full visibility of the washed specimen as it is injected into the uterus

Directional Injection

Side hole near the tip is aligned with the printed depth marks and a flat side of the connector. The alignment allows the catheter to point towards either the left or right fallopian tube ostium for directional injection.
