

# ORCHID SPECULUM THE COMFORT FRIENDLY SPECULUM

## Preferred by doctors

- Smooth single handed operation and locking
- Hands free after placement
- Inwardly folded edges facilitate optimal Cervix orientation
- Front handle design angled backwards providing greater freedom of movement
- No preheating required
- Virtually unbreakable plastic
- Excellent product strength through optimised design.

## Loved by patients

- Smooth round edges ensuring patient comfort
- Gap design prevents pinching
- Single use guaranteed clean
- Patient temperature friendly
- Clinical white look

## Special Edition Models

### SX – with smoke extraction

Facilitates precise horizontal manipulation of instruments due to the slim line smoke channel.
